Total criteria objective 55	
Total award criteria 100	

In accordance with article 146 of the LCSP in relation to directive 1/2020 on the application of valuation formulas and scoring of the economic and technical proposals of the General Directorate of Public Contracting, the most appropriate valuation formulas have been established to guarantee that the winning bid of the competition followed the most satisfactory public interests that it satisfied.

The award criteria are automatically awarded at 55% and mitjançant a judgment of value at 45%. The 55% includes the quantifiable aspects of the award, especially the economic offer, but also other valuable elements in the applications of formulas with the experience of the professional team, in creative projects similar to the object of the contract and better with respect to the minimum requirements of the Technical Plec. The 45% allows the calculation of the valuation criteria for awarding and also the qualitative aspects of each concurrent offer to be adjusted. In this case, the technical quality, the execution plan and the work methodology are valued, thus configuring the aspects to be complemented in the general calculation of the award criteria of the service object of the contract.

The reasons stated are that the need and suitability to proceed with the aforementioned contract is justified, to this end, it is necessary to initiate the present contract file.
